## Dear Colleagues and Friends,

We are sharing with you the IUC Academic Programme for 2024.

We live in challenging times. Current global trends related peace and security, development and human rights are negative. Global divisions are deepening, there are more conflicts and they last longer, implementation of sustainable development goals slowed, halted or reversed, and respect for human rights and rule of law are back tracking. Environmental situation was never more serious and we are facing triple, intersecting planetary crisis of climate change, biodiversity loss and pollution. We are witnessing a paradox: because of strengthening of global interdependence, multilateral approach was never more important to overcome challenges we are facing, while at the same time it is increasingly pushed back by pursue of short-term, unrestrained national self-interests.

This is the time when our academic communities must work stronger together in supporting peaceful solutions to conflicts and building healthier societies for our future. Inter-University Centre wishes to contribute to it by providing an open platform for the exchange of knowledge, ideas and strengthening connections in various academic fields. It was established fifty-two years ago, as an independent international institution for advanced studies, and an academic meeting place between East and West, as well as South and North. Universities from virtually all over the world joined IUC as members of the Centre that is independent and academically run. Historical city of Dubrovnik, in its sun and the shade off its walls is an ideal safe haven and incubator for out of box thinking and protecting humanistic values.

I hope that you will find our programme of postgraduate courses and conferences relevant and interesting. Last year we had 55 programmes with more than 2000 participants. Current programme in front of you clearly demonstrates that in the years to come we are likely to be even more successful. Most of our participants were on site, but digital technologies continue to be used as an auxiliary tool. IUC is much more than teaching and learning facility only – it a large family of its participants, exchanging ideas and freely discussing on how to respond to global challenges.

To help to overcome crisis of global management and multilateralism, during last years, we have strengthened participation of high-level UN officials in the IUC events, and we will continue to do so. To increase diversity of our participants, we have also increased access to various scholarships (announced on pages that follow). Finally, in this brochure we are using the new IUC logo for the first time. It reflects the idea of the global diversity and the need to strengthen various global ties, including through international advanced academic studies.

## SUPPORT, SCHOLARSHIPS & CREDIT POINTS

Infrastructure is offered by [University of Zagreb, Croatian Ministry of Science and Education](#) is offering scholarships for Croatian participants. [IUC South-East European Scholarship Fund](#) is securing scholarships to PhD students from this region studying or teaching in the fields of humanities and social sciences. [Marija and Mirjan Damaška Scholarship Fund](#) is intended for IUC human rights and mass atrocities prevention courses. Beneficiaries can be from non-EU countries in SE Europe, and exceptionally from other countries if they are affected by conflict or instability, and if the courses relate to ways to overcome them.

Furthermore, other national funding institutions and foundations often offer scholarships or grants for IUC post-graduate courses.

More info on scholarship options at <https://iuc.hr/scholarships>.

In Erasmus programme PhD mobility grants are available for students, while staff can use grants for training. IUC programmes may also receive Erasmus+ support under BIP (Blended Intensive Programmes) when one of the members of the consortium is a Croatian HEI. Course and conference participants should approach the academic exchanges service at their home universities for further inquiries.

A certificate of attendance is awarded to each student who attends a full course and satisfactorily completes tasks established by course directors. Course directors secure the recognition of ECTS points at home universities. The decision on number of ECTS points is made in accordance with the university and the respective graduate and research training programme. ECTS points will be measured by the necessary workload of the student to achieve defined learning outcomes and competences. The workload includes time the student needs for lectures, seminars, independent work, reading, learning, writing a paper, and presenting a paper and/or exam.

## INVITATION TO ORGANIZE AN IUC PROGRAMME

The IUC is open to new entries. The IUC course or conference must be international (organised by at least two professors from two different countries, while lecturers and preferably students should be from at least three different countries) and on the advanced academic level (graduate, postgraduate or post-doc). Organising course and conference directors contact the IUC Secretariat to check the availability of space for a specific date. It is advisable to be flexible with dates, if it is possible. Courses should have minimum 10, maximum 50 participants. This does not apply for conferences. Course organisers and participants are required to cover participation fees. Organisers coming from paying IUC member universities have a significant discount. It is also advisable to secure the academic points to participants at home universities. Applications for the next academic year with detailed course and conference information are submitted in spring and approved by the IUC Executive Committee. For more information, please visit the page: <https://iuc.hr/organize-iuc-programme>.

## ABOUT THE IUC

The Inter-University Centre Dubrovnik is an independent centre for advanced study, grounded in its international network of partner universities. The mission of the IUC is promotion and implementation of international cooperation in the academic community as well as network building for peaceful co-existence and pluralism regionally and worldwide.

Since its foundation the main practice of the IUC was and is the organisation of different sorts of courses and conferences within the broad spectrum of scientific disciplines. Each course and conference is provided by scientific staff from multiple countries. In doing so, the IUC Dubrovnik takes pride in bringing together scholars and students from different countries, cultures and academic disciplines to advanced research and higher education programmes. In its activities, the IUC Dubrovnik maintains high standards of scientific quality, and provides an open space for critical thinking and innovation.

The IUC emphasises and supports attention for Inter-disciplinary and cross - national collaboration on global challenges such as peace, human universal values and rights, health, education, poverty and climate, encouraging, in addition to East-West collaboration also new North-South initiatives. The IUC also stimulates development of research activities, in particularly related to the courses and conferences within the programme and contributes to connecting leading international partner universities to regional academic institutions.

To be as inclusive as possible the IUC is running the South-East European Scholarship fund with which it supports students and staff members from the region in humanities and social sciences, who are lacking other means of support. More on this fund with the link to donate at <https://iuc.hr/scholarships/iuc-support>. Professor Emeritus of Yale Law School Mirjan Damaška has established a fund supporting participants of IUC courses and conferences dealing with human rights, and atrocity prevention (<https://iuc.hr/scholarships/damaska-scholarship-fund>).

In recent years, faced with COVID pandemic, the IUC has been organising hybrid and online programmes and has made some of the lectures available to the wider academic and general public. Online lectures can be searched by fields of study, author or title and found on the web site <https://iuc.hr/online-lectures>. Additionally, the Working Paper Series are presenting outcomes of IUC activities - <https://iuc.hr/iuc-working-paper-series>.

## ACKNOWLEDGEMENT

We are grateful to all that are supporting Inter-University Centre Dubrovnik. University of Zagreb is securing the logistical infrastructure while member institutions support the operation with membership fees. The Croatian Ministry of Science and Education is offering the support for operation and scholarships, while many other foundations such as German DAAD support participants of IUC programmes. Support has been received from many foreign Embassies in Croatia, such as American, British, Swiss, Dutch, Norwegian and Indian Embassies. Special thanks go to private donors who contribute to our scholarship funds, especially Prof. Mirjan Damaška. Finally, thanks are expressed to all course directors and home institutions of participants for securing funds for the IUC programmes.

**IUC Council.** The IUC is structured as a consortium of universities and other scientific institutions forming the Centre's policies and objectives. Each Member Institution delegates one representative to the Council, which is the policy-making and the highest governing body of the IUC. Also it is responsible for the Constitution of the Centre, admission of new members, establishment of fields of study and academic cooperation, budgetary matters, Executive Committee election & appointment of the Director General. It is chaired by Chair of the Council.

**Executive Committee** acts on behalf of the Council between Council Meetings on the formation of the annual academic programme, acceptance of budget and financial reports and agreements & contracts with other institutions. It is chaired by Chair of the Executive Committee.

**Director General** is responsible for the Centre, its programmes and finances.

**IUC Association** provides a legal basis for the functioning of the Centre, for the personnel, premises, equipment and required funding. It was registered in November 1994 in order to provide the continuity of the institution in the new legal settings of the Republic of Croatia. It is chaired by President of the Association.

**All governing functions at the IUC are performed by dedicated members on voluntary basis.**
